Example Measuring the Difference	'personalisation' 'writing skills'
<p>Evaluation underpins everything that we do.</p> <p>It is no longer just the preserve of the Centre Manager, but is used as an information giving and reflection exercise, which is then fed back into the programme in light of the findings.</p> <p>We set time to investigate the data to ensure quality of provision. We look for patterns and think about reasons why these might have occurred. Staff at all levels are encouraged to look at and make use of the data to ensure students are being provided with first class support.</p> <p>We ensure that partners are aware of all findings whether on the surface 'negative' or not.</p> <p>We do this by ensuring that these are up to date, relevant and in a useable and understandable format. Our various partners receive a combination of the following:-</p> <p><i>Termly reports: Individual school PASS information; Annual PASS information; LA data on value added; Business Plans; and Annual Reports as well in other less formal ways such as newsletters.</i></p> <p>It is through the use of honest data that we feel that we are able to make the necessary changes to the programme on offer, so that we can incorporate the requirements of all partners.</p>
